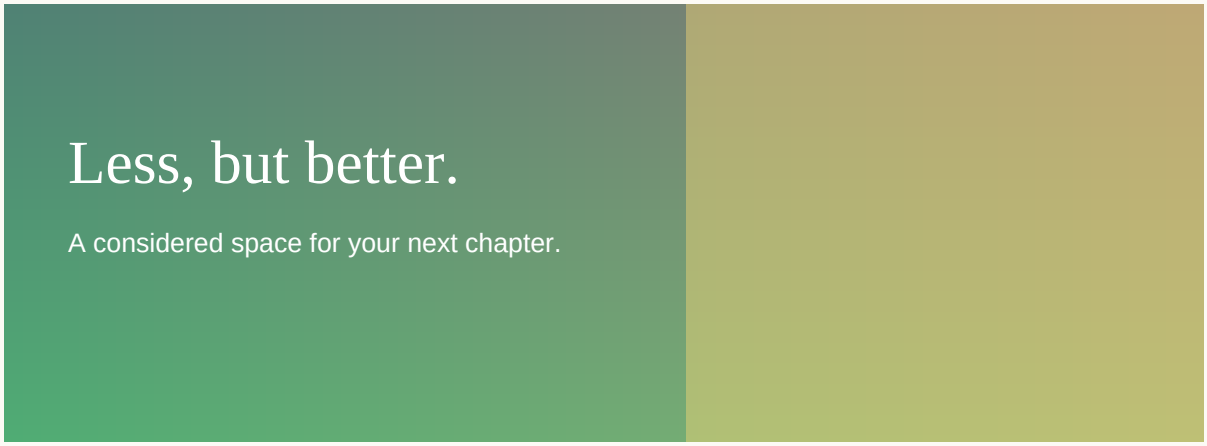
01 / ON READING WELL

The quiet art of focus

A little less noise. A little more room for what matters.



01 Make room for attention

Good reading starts with a little space. Not another feature, but a place where the page comes first and the tools step back.

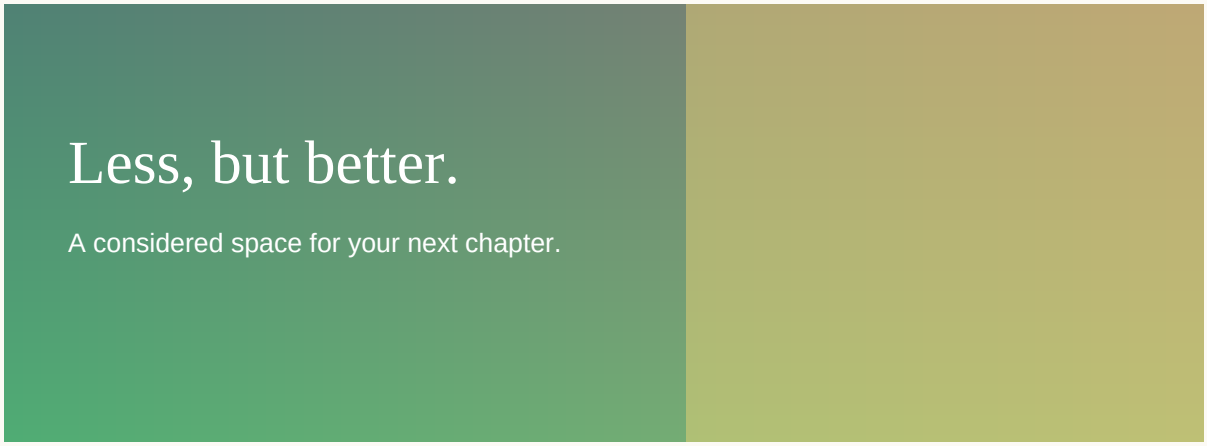
Keep the details that help you think. Mark a sentence, follow an idea, and return to it when the moment is right. Your place is always here.

> Attention is the beginning of discovery.
>
> A native reading experience, made with Rust.

02 / ON READING WELL

Space to think

A little less noise. A little more room for what matters.



01 Make room for attention

Good reading starts with a little space. Not another feature, but a place where the page comes first and the tools step back.

Keep the details that help you think. Mark a sentence, follow an idea, and return to it when the moment is right. Your place is always here.
